February 2009

Love...

• **noun** 1. an intense feeling of deep affection. 2. a deep romantic or sexual attachment to someone. 3. a great interest and pleasure in something. 4. a person or thing that one loves. 5. (in tennis, squash, etc.) a score of zero. Apparently from the phrase *play for love* (i.e. the love of the game, not for money).

• **verb** 1. feel love for. 2. like very much. 3. **loving** showing love or great care

Pick your definition and run with it...it's time for

VALENTINE'S DAY!

Historians trace the origin of Valentine's Day to ancient Roman Empire. It is said that in the Rome of ancient times people observed a holiday on February 14th to honour Juno - the **Queen** of Roman Gods and Goddesses. The Romans also regarded Juno as the Goddess of Women and Marriage. On the following day, February 15th began the fertility festival called 'Feast of Lupercalia'. The festival of Lupercalia was celebrated to honour the Gods Lupercus and Faunus - the Roman God of Agriculture besides the legendary founders of Rome, Romulus and Remus.

During the Middle ages, people in England and France believed that February 14 marked the beginning of birds mating season. This belief further boosted the idea that February 14 should be celebrated as a day for romance.

If you are looking for **lovmaking** advice, ideas or instruction for **Valentine's Day** try checking out www.lovingyou.com. You will be able to find "How To"

articles that help with any questions about your partner is the wrong might want to Don't be shy figuring out your partner If all else ask them! This provides simple ideas for fresh.

If your moaning for reasons you try this site. about what it is might like. fails...just site also romantic keeping life

The Love Calculator

is good for a hearty laugh about your choice of partners just in time for Valentine's Day. Have you heard of this? You type in your name and the name of your would be or current partner and the calculator will determine if it feels your relationship will last. Of course I had to test the calculator...after submitting my name and my partner's the chance of our relationship lasting was 48%.

"The chance of a relationship working out between (you) and (your partner) is not very big, but a relationship is very well possible, if the two of you really want it to, and are prepared to make some sacrifices for it. You'll have to spend a lot of quality time together. You must be aware of the fact that this relationship might not work out at all, no matter how much time you invest in it." Good to know.

Just for fun I started putting random names in to see if ANYONE stands a chance. You'd be surprised that some people apparently won't make it...

Brad & Angelina...23%

Charles & Camilla...44%

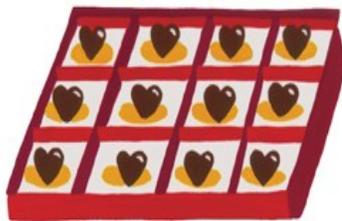

But there is one couple who taught the world to love and what do you know...

John & Yoko... **93%** Just like the song says, All You Need is Love (written by John Lennon)

Check it out for yourselves at www.lovecalculator.com

Ode to Chocolate

So delish
I always wish
When I get to the last
That my craving has past
But when I eat the last one
And the box is done
I grab my cash
And go for a dash
To my favourite
candy store
To buy myself
